**EMPLOYMENT AND EARNINGS
UNDER THE ARKANSAS EMPLOYMENT SECURITY LAW
THIRD QUARTER 1990**

DESCRIPTION OF DATA

This publication contains covered employment and payroll data by industry and county for the **Third Quarter 1990**. These data are compiled from quarterly contribution and wage reports submitted by employers subject to the Arkansas Employment Security Law. Employment data have been tabulated for each month of the quarter by industry under the Revised SIC Classification (see "Industry Classification" below) on a statewide and county basis. Payroll data represent the total wages paid during the quarter and are also shown by industry for the State and by publishable industry groups for each county. In addition, there are tables included which set out total covered employment and manufacturing employment by months, quarterly payrolls, and average weekly earnings for the years 1984 through 1990.

INDUSTRY CLASSIFICATION

Previously published industry data will not be comparable in all instances with currently published data since industry codes have been revised according to the following Manuals: (a) manufacturing industries were coded according to the 1945 Standard Industrial Manual until December 31, 1957, while nonmanufacturing industries were coded under the Social Security Board Industrial Classification Manual (1942), (b) between January 1, 1958 and December 31, 1967, industry codes were assigned under the 1957 Standard Industrial Classification (SIC) Manual, (c) between January 1, 1968 and December 31, 1974, industry codes were assigned under the 1967 Standard Industrial Classification (SIC) Manual, (d) between January 1, 1975 and December 31, 1987, industry codes were assigned under the 1972 Standard Industrial Classification (SIC) Manual, and (e) since January 1, 1988, industry codes have been assigned under the 1987 Standard Industrial Classification (SIC) Manual.

DEFINITION OF COVERED EMPLOYMENT AND EARNINGS

Covered employment is the number of workers employed by employers subject to the Arkansas Employment Security Law during the pay period which includes the 12th of the month. An employer is subject to the law when he has employed one or more employees in each of ten days during the current or preceding calendar year.

Currently excluded from coverage is employment covered by the Railroad Unemployment Insurance Act; some domestic service workers; employees of small agricultural establishments, self-employed and unpaid family workers; insurance and real estate agents who are on commission only, and employees of churches and religious organizations, except separately incorporated schools. The payroll information in this publication includes all wages and salaries paid to covered employees by their employers including bonuses, commissions, and cash values or remunerations received in any medium other than cash. These wages include both taxable and nontaxable wages. Only the first \$7,800 paid to each worker by an employer in the calendar year is taxable under the Arkansas Employment Security Law.

FEDERAL GOVERNMENT EMPLOYMENT

The table on **page 50** lists the total number of civilians employed by the Federal Government in Arkansas during the **Third Quarter 1990**. Employment relating to selected Federal departments is also set out. These data are obtained from required reports submitted by various government agencies having employment in the State.

COUNTY CLASSIFICATION

Employment and payroll data by county are classified according to the county where the workers are employed. Employers with operations in more than one county are requested to furnish this agency with a breakdown of employment and wages for at least one quarter of each year by the counties in which they operate. Many such employers submit county data with each regular contribution report. This information is invaluable in the preparation of monthly employment and payroll data by county. Employment and payroll data for multi-area employers who do not furnish county data each quarter of the year are prorated by county on the basis of the one quarter's information.

The "rest-of-state" table which appears on **page 49** of this publication includes data for firms which did not provide a county breakdown of employment and payrolls. It also includes sales and other type personnel with no permanent place of work as well as employment of employers with no established place of business in Arkansas.

SIGNIFICANT DEVELOPMENTS DURING THIRD QUARTER 1990

AVERAGE EMPLOYMENT CHANGES

Covered employment averaged 874,542 during the Third Quarter 1990, a decrease of 9,261 from the previous quarter and 27,710 above the average recorded one year ago. Manufacturing industries experienced an over-the-quarter gain of 2,214, while nonmanufacturing industries recorded a decline of 11,476. Both sectors posted over-the-year gains. The manufacturing industries added 2,316 to the average recorded one year ago, while nonmanufacturing industries added 25,393.

EMPLOYMENT CHANGES FROM SECOND QUARTER 1990

Twelve of the published manufacturing industry groups recorded over-the-quarter gains, while seven experienced losses. The most significant gains occurred in food and kindred products (+773) and lumber and wood products (+568). Chemicals and allied products recorded the greatest loss (-277), followed by industrial machinery and related products (-109.)

All nonmanufacturing industries recorded gains except state and local government with a loss of 21,263. This drop was due to the summer vacation period in the local school districts. The most significant increases occurred in services (+4,600), construction (+1,771) and wholesale and retail trade (+1,397).

EMPLOYMENT CHANGES FROM THIRD QUARTER 1989 ¹

The most significant over-the-year gain in the manufacturing industries occurred in food and kindred products (+1,380). Notable losses were recorded in industrial machinery and equipment (-628), and apparel and other textile products (-574).

Large over-the-year gains in nonmanufacturing industries occurred in services (+11,918), state and local government (+4,955), construction (+3,652) and wholesale and retail trade (+2,455). Finance, insurance and real estate (-92) was the only industry to experience a decline.

COVERED WAGES

Wages paid to covered workers totaled \$3,852,900,346 for the **Third Quarter 1990** for an average weekly wage of \$338.89. Workers in the manufacturing industries earned an average weekly wage of \$382.29. Employees in the paper and allied products industry received the highest average weekly wage (\$589.56), while workers in apparel and other textile products earned the lowest (\$201.18). Average weekly earnings for nonmanufacturing workers was \$322.98.

Little River County employees recorded the highest average weekly wage (\$512.00) and workers in Newton County the lowest (\$187.41).

¹ Previously published industry data will not be comparable in all instances with currently published data since industry codes have been revised according to the 1987 Standard Industrial Classification (SIC) Manual since January 1, 1988.

TABLE 1. QUARTERLY COMPARISON OF COVERED EMPLOYMENT AND WAGES, BY INDUSTRY
