INTRODUCTION

The Directory of Licensed, Certified, and Registered Occupations in Arkansas is designed to provide students, job seekers, counselors, and other interested persons with information about occupational licenses or certificates issued by Arkansas state boards, commissions, and departments.

This directory is a source of readily accessible occupational licensing/certifying information for occupations in Arkansas, but it in no way replaces detailed information available from the various licensing and certifying boards and agencies. The information in this directory was taken from materials supplied by each of the boards and agencies. In most cases, the facts contained in this publication are the wordage of the occupational licensing or certifying authorities themselves. The publication is designed to provide readers with information on Arkansas regulated occupations and contains requirements found in Arkansas state statutes. Although some occupations contained in this directory reference business activity, the directory attempts to maintain a complete list of occupational licenses or certificates for individuals only. Licensing requirements issued by federal agencies or local municipalities are not included.

The directory includes a job title, O*Net Code, a brief job description, required examinations and fees, other requirements, and the name, address, telephone number, fax number (where available), web address (where available), and e-mail address (where available) of the licensing authority. Where available, the number of active or total licenses for each occupation is included.

O*Net is an occupational classification system that includes detailed analysis of occupational work duties, knowledge, skills, and activities. The Standard Occupational Classification (SOC) system is a coding system used by federal government agencies, and federal/state cooperative programs to classify workers into occupational categories for the purpose of collecting, calculating, or disseminating data. O*Net is based on the SOC system.

We extend our thanks to the various licensing/certifying agencies, boards and/or commissions for providing information and assistance in the revision of this handbook. We have attempted to make this information as accurate as possible, but it should be noted that the licensing/certifying procedures are subject to change due to revisions made by the various regulating authorities or by the Arkansas State Legislature. Users of this handbook are urged to advise the Department of Workforce Services, Occupational-Career Information Section of any errors or omissions.

For business license information, contact your local city or county government offices. For a listing of Business Resources, visit the State of Arkansas website at www.arkansas.gov.

CERTIFIED PUBLIC ACCOUNTANT
O*NET CODE 13-2011.01

Job Description
Certified Public Accountants analyze business records and financial reports. They audit profit and loss statements, balance sheets, cost studies, and prepare tax reports. Accountants may also develop, install, and supervise accounting systems and operations. There are three fields of accounting employment: public accountants, who have their own firms or work for accounting firms; management accountants, who handle the financial records of the companies for whom they work; and accountants who are employed by the government.

Examinations and Fees
CPA Examination:
- Initial (first-time) application fee $50.00
- 4 Exam Sections $120.00
- 3 Exam Sections $105.00
- 2 Exam Sections $90.00
- 1 Exam Section $75.00

Other fees are also collected by the Board and will be displayed on the examination application.

Once eligibility to take the exam is determined, the Board will send an Authorization to Test to the National Candidate Database at National Association of State Boards of Accountancy (NASBA). NASBA will then issue a Notice to Schedule (NTS). An eligible candidate has 6 months from the date of the NTS, to schedule and take the approved examination sections. Utilizing the NTS, candidates are required to contact Prometric for site locations and test times. For a list of the Prometric Testing Centers in Arkansas, visit their web site at www.prometric.com. The Arkansas State Board of Accountancy does not control space availability or locale of the testing centers.

CPA/PA License Application fee $50.00
Reciprocal License Application fee $50.00
Registration as a Certified Public Accountant Application fee $50.00
License to Practice Registration fee (Annual) $110.00

Visit the ASBPA Web site for additional fees.

1. Must meet the education and experience requirements set by the Board.
2. Must pass all parts of the CPA examination.
3. Must be of good moral character.
4. Must provide fingerprints and authorize the Board to conduct a criminal background check for verification.

Any candidate who successfully completes the CPA examination must also complete 150 semester credit hours of education in order to be licensed. Successful candidates must complete this education requirement within 3 years of the date the last CPA exam section was passed. Candidates who are unable to complete this education requirement within 3 years due to extreme hardship (medical or other) may apply to the Board for an extension.
CERTIFIED PUBLIC ACCOUNTANT (Cont.)

Education Requirements to sit for the CPA Examination

An applicant will be deemed to have met the education requirement if the applicant earned a graduate or an undergraduate degree including at least 30 hours in business and at least 30 upper-level or 20 graduate hours in accounting (or a combination thereof) from a college or university that meets the criteria for accreditation. Applicants must meet the accounting education requirements and the business education requirements.

The accounting component of the applicant’s educational program must include at least 30 semester credit hours (SCH) of undergraduate accounting courses above the principles level or 20 SCH of graduate-level accounting courses, or a combination thereof. The accounting component must include coverage of financial accounting, management accounting, governmental and not-for-profit accounting, federal taxation, auditing and attestation, and accounting information systems. The applicant must earn a grade of “C” or better in each course included in the accounting component.

The business component of the applicant’s educational program must include at least 30 SCH of undergraduate courses in business, other than accounting, or 20 SCH of graduate business courses other than accounting (or a combination thereof). The applicant must earn a grade of “C” or better in each course included in the business component.

Internship credit: The accounting or business component (but not both) may include a maximum of 3 SCH earned for an accounting internship. Internship credit may not be used to fulfill the subject matter requirements. The business component may include a maximum of 3 SCH earned for a business internship, other than in accounting.

Independent study: The accounting or business component (but not both) may include a maximum of 3 SCH earned for an independent study. When appropriately documented by the institution, these hours may be used to fulfill part of the subject matter requirements.

SECONDARY SCHOOL TEACHER
O*NET CODE 25-2031.00

Job Description

Secondary School Teachers usually teach in only one, two or three subject areas. They teach several classes every day, with the teaching method varying from formal lectures to free discussions, depending on the subject and the students’ needs and aptitudes. The choice of method is usually left to the teacher. Besides giving classroom instruction, all school teachers plan and develop teaching materials, prepare and correct tests, maintain records and make out reports, consult with parents, and perform other duties as directed. Maintaining good relations with parents and the community is an important aspect of the teaching profession. Teachers must be willing to devote extra time to those students who need special help, and they must continually stay up-to-date on new educational materials and teaching techniques. Specialty areas of licensure include teaching of the humanities, science and mathematics, visual and performing arts and vocational education courses.

17-2171.00 17-2199.00

Job Description

Engineer Interns contribute greatly to the public safety, welfare, scientific progress, and defense of the nation. The results of their work have a profound effect on every phase of modern society. Engineers design industrial machinery, develop scientific equipment, supervise the construction of buildings and highways, and design consumer products and various other innovations that help people adjust to modern society. They evaluate the overall effectiveness of their new devices, as well as the cost and reliability. Although most engineers develop a specific expertise, all require a basic knowledge of common engineering methodology. The emphasis on application of scientific principles, rather than on their discovery, is the main distinguishing factor of an engineer’s work from that of a scientist. The engineer’s work is not limited to design and development and may include inspection, quality control, management and administration.

While under the supervision of a licensed engineer, an Engineer Intern performs the same design and development functions, as well as quality control, inspection, management and administration as a Professional Engineer.

WASTEWATER TREATMENT PLANT OPERATOR
O*NET CODE 51-8031.00

Job Description

Wastewater Treatment Plant Operators protect water resources by controlling water pollution through the removal of domestic and industrial waste. Domestic and industrial waste is carried by water through sewers and arrives at treatment plants in a diluted state. Plant operators control equipment to remove waste materials or render them harmless to human, animal and fish life. This operation involves a variety of treatment processes. The job duties of the wastewater treatment plant operator depend greatly upon the size and complexity of the treatment plant. In smaller plants, the operator may be responsible for the entire system, while in larger plants; the staff may include helpers, foremen, and chief operators. Some of the routine duties performed by plant operators include reading meters and gauges, directing the flow of wastewater, operating screening devices, repairing equipment, taking wastewater samples, and entering information on log sheets. Sometimes, operators must work under emergency conditions, such as when pumps or other equipment break down.

PEST / WEED CONTROL APPLICATOR
O*NET CODE 37-2021.00, O*NET CODE 37-3012.00

Job Description

Pest/Weed Control businesses are required to possess a License Holders License which is issued to the business. The business is eligible to perform pest/weed control services based on the employment of licensed applicators and the classifications for which the applicator is licensed. Pest/Weed Control Applicators can be licensed in any or all of the following ten classifications:

1) Classification 1: Termites and Other Structural Pests Control
   These license holders are allowed to perform work for the prevention, control, or eradication of termites and other structural pests. Such work may utilize restricted use chemical to affect the control or eradication of structural pests. Allowable treatments include soil applied pre-construction treatments (pretreatments). These license holders may also issue ‘letters of clearance’ to facilitate transactions effecting transfer of ownership of real property.

2) Classification 2: Household Pests and Rodent Control
   These license holders are allowed to apply control measures for the control of any mammal, bird, arthropod, reptile or other organism (other than wood-damaging or destroying insects, fungi or organisms) that may infest or invade a home or other buildings or the immediate area around or under these homes, buildings or other areas.

3) Classification 3: General Fumigation
   These license holders are allowed to utilize various formulations of lethal toxic gases for the purpose of eliminating pests that might be infesting products or structures. This license is required for persons who wish to perform food related fumigations for more than one person or business entity.

4) Classification 4: Tree and Turf Pests Control
   These license holders are allowed to apply chemicals for the control of insects, fungi, arthropods, slugs, weeds or other organisms in ornamental species plantings or in turf areas.

5) Classification 5: Weed Control
   These license holders are allowed to utilize various chemicals in the control of ‘weeds’ in non-agricultural, non-right of way turf areas. (herbicides only)

6) Classification 6: Golf Course Pest Control
   These license holders are allowed to utilize various chemicals in the control of weeds, insects, arthropods, mammals, birds, fungi or other organisms that are typically found infesting turf, plantings and highly managed greens found on golf courses.

7) Classification 7: Non-Commercial Pest Control
   A Non-Commercial Applicator Certificate shall be issued in this classification to owners or employees of government, institutions, businesses, companies, or corporations for the purpose of performing pest control work (including wood destroying insects and organisms) on the premises of property owned or managed by themselves or their employer. Non-commercial applicators shall be restricted to pest control work at addresses owned or under the direct management of their employer as stated on the Non-Commercial Applicator Certificate.

8) Classification 8: Non-Commercial Fumigation
   Holders of a certificate in this classification are employees of large scale, primarily wholesale food manufacturing, processing and storing companies or corporations. These employees shall be restricted to performing fumigations only at the company address or addresses stated on the certificate.

9) Classification 9: Non-Commercial Tree and Turf Pest Control
   A Non-Commercial Applicator Certificate shall be issued to owners or employees of government, institutions, businesses, companies, or corporations for the purpose of performing tree and turf pest control work on the premises of property owned by themselves or their employer. Said non-commercial applicators shall be restricted to pest control work at the address or addresses stated on the Non-Commercial Applicator Certificate.

COMMISSION JUDGE
O*NET CODE 27-2023.00

Job Description
On each race day, the Commission Judge must report to the racetrack office no later than 30 minutes before weighing-in time to perform his assigned duties. The commission judge approves the presiding judge's decision on which greyhound wins the race and which are assigned to the respective places after the winner is determined. If either the commission judge or the presiding judge requests a photograph to determine the winning greyhound, the race results cannot be posted until the photo is examined. However, if a winner is determined and a photo is needed to determine subsequent places, the winner can be posted. Both the commission judge and the presiding judge must determine a first, second, and third place before the race is declared official. In addition, the commission judge and the presiding judge note any corrupt racing transactions that may be reported. The commission judge supervises the conduct of the racing officials and reports any infractions to the Racing Commission. He must attend all races and official schooling races.

Examinations and Fees
No examinations. Qualifications are determined from application and employer endorsements. Commission may require applicant and endorsers to appear in person and show proof of qualifications.

GREYHOUND LEAD-OUT
O*NET CODE 39-2021.00

**Job Description**

Lead-outs are individuals employed by the franchise holder to lead greyhounds from the paddock to the starting gate. Owners, trainers, or attendants cannot lead their greyhounds from the paddock to the post. Lead-outs must present a neat appearance, conduct themselves in an orderly manner, and wear a clean uniform that is provided by the franchise holder. The lead-out puts his greyhound in its proper box before a race and retires to an assigned place that is close to the finish line. He may not go onto the track until the greyhounds have passed the finish line. Lead-outs are not permitted to hold any interest in the greyhound racing for the franchise holder. The paddock judge assigns the lead-outs to post position by lot, before each race. Lead-outs are prohibited from conversing with the public or each other in the paddock, while in route to the starting post, or while returning to the paddock. Lead-outs cannot smoke while in uniform or on duty.

MUTUELS DIRECTOR
O*NET CODE 11-1021.00

Job Description
The Director of Mutuels makes decisions about all operational emergencies in the parimutuel department that are not covered by the rules of racing. Before each race, the racing secretary advises the Director of Mutuels of all greyhounds scheduled to compete. If less than six interests qualify greyhounds to start in a race, the Director of Mutuels may prohibit show wagering in the race. If less than five interests qualify greyhounds, both show and place wagering may be prohibited. All wagering may be prohibited if less than three interests qualify greyhounds for the start. The Director of Mutuels furnishes a copy of all “take-off sheets” of the mutuels to the Commission's auditor after each race.

PRESIDING JUDGE  
O*NET CODE 27-2023.00  

**Job Description**  
On each race day, the **Presiding Judge** must report to the racetrack office no later than 30 minutes before weighing-in time to perform his assigned duties. With the approval of the commission judge, the presiding judge decides which greyhound wins the race and which are assigned to the respective places after the winner is determined. If either the commission or the presiding judge requests a photograph to determine the winning greyhound, the race results cannot be posted until the photo is examined. However, if a winner is determined and a photo is needed to determine subsequent places, the winner can be posted. Both judges must determine a first, second, and third place before the race is declared official. The presiding judge oversees the weighing of greyhounds and may order a weighing at any period from the time entered until post time. If a greyhound consistently loses weight in excess of one and one-half pounds while in lock-out kennels, the presiding judge may allow the greyhound to race after consulting with the State Veterinarian to determine that the weight loss does not impair its racing condition. The presiding judge may provide a written request or written consent to change the established racing weight of a greyhound after considering specified criteria. In addition, the presiding judge and the commission judge note corrupt racing transactions that may be reported.

PLACING JUDGE
O*NET CODE 27-2023.00

Job Description
Placing Judges watch the race from an elevated stand at the finish line to place and record the order in which the horses finish. When the judges’ opinions differ, the majority opinion prevails, and they must decide as promptly as possible. When it is impossible to determine the winning horses, the placing judges must rely on pictures from the finish camera. When making their decision, the placing judges consider only the relative position of the horses' noses. No decisions can be changed after the “official” sign has been displayed. Placing judges file a copy of the official placement of the first five horses in each daily race with the Commission and supply other officials with racing information as required by the franchise holder.

Examinations and Fees
No examinations. Qualifications are determined from applications and employer endorsements.
Commission may require applicant and endorsers to appear in person and show proof of qualifications.

VETERINARIAN
O*NET CODE 29-1131.00

Job Description

Doctors of Veterinary Medicine diagnose, treat, and control numerous diseases and injuries of animals. Because much of their work is involved with commercial livestock, veterinarians play an important role in the nation's food production. They are also important to the overall public health program preventing the outbreak of animal diseases, many of which can be spread to humans. Veterinarians perform surgery on sick and injured animals and also prescribe and administer drugs, medicines, serums and vaccines. Most veterinarians are general practitioners who treat livestock as well as pets. Those who live in large metropolitan areas work almost exclusively with their client's pets, while those practicing in rural areas usually specialize in treating farm animals. Many veterinarians are employed in federal and state health programs, conducting inspections on meat, poultry, and other foods. Others are on the faculties of veterinary colleges or are engaged in various types of research.
